COMMONWEALTH MYCOLOGICAL INSTITUTE
- 8 MAR 1972

VOLUME 21, PARTS 1 - 5, 1969

Communications 443 - 496

Abbreviated title in 'World List of Scientific Periodicals':

J. Rubb. Res. Inst. Malaya

Printed at Art Printing Works, Kuala Lumpur, Malaysia

CONTENTS OF VOLUME 21

PART 1

	Communication	Page
Genetical Bases of Plant Breeding. *N. W. Simmonds*	443	1
Performance of Recent Introductions of *Hevea* in Malaya. *S. Subramaniam*	444	11
Results of Vegetative Selection in Cambodia. *S. Langlois* ...	445	19
Breeding for Multiple Characters of Economic Importance in *Hevea*—Preliminary Assessment of Recent Selections. *D. M. Fernando*	446	27
Breeding of *Hevea*. *P. R. Wycherley*	447	38
Effect of *Oidium* and *Dothidella*-Resistant Crowns on Growth and Yield of *Hevea Brasiliensis*. *A. J. Radjino*	448	56
Economics of Controlling Secondary Leaf Fall of *Hevea* Caused by *Oidium Heveae* Steinm. *R. L. Wastie and B. J. Mainstone*	449	64
Studies on Epidemiology of *Phytophthora* Leaf Disease of *Hevea Brasiliensis* in Ceylon. *O. S. Peries*	450	73
Phytophthora Leaf Disease in Malaysia. *K. H. Chee*	451	79
Black Stripe Disease and Control Measures in Cambodia. *G. O. Deconinck*	452	88
White Root Rot (*Leptoporus Lignosus*) of Rubber on Lower Ivory Coast. *R. Martin and C. J. du Plessix*	453	96

PART 2

Ground Covers and Performance. *B. S. Gray*	454	107
Residual Effects of Ground Cover and Nitrogen Fertilisation of *Hevea* Prior to Tapping. *B. J. Mainstone*	455	113
Manuring of Rubber in Relation to Covers. *E. Pushparajah and K. Chellapah*	456	126
Effect of Cover Plants. *P. R. Wycherley and M.M. Chandapillai*	457	140
Cover Plant Trials. *S. M. Warriar*	458	158

	Communication	Page
Response in Growth and Yield of *Hevea Brasiliensis* to Fertiliser Application on Rengam Series Soil. *E. Pushparajah* ...	459	165
Relative Importance of Fertiliser Application During Pre- and Post-Tapping Phases of *Hevea*. *A. J. Jeevaratnam* ...	460	175
Effect of Fertiliser Applications on Latex Properties. *H. M. Collier and J. S. Lowe*	461	181
Effects of Minerals Introduced Directly into the Wood and of Acetylene Applied to the Bark of *Hevea*. *Y. Banchi and J-P. Poliniere*	462	192
Recent Advances in Fertiliser Usage for Rubber in Malaya. *M. M. Guha*	463	207
Provisional Classification of Rubber Soils of Ceylon and their Relationship to Malayan Soils. *C. G. Silva*	464	217
Variation in Leaf Nutrient Content of *Hevea* with Clone and Age of Leaf. *M. M. Guha and R. Narayanan*	465	225
Thermodynamic Assessment of the Nutrient Status of Rubber-Growing Soils. *M. Mohinder Singh and O. Talibudeen* ...	466	240
Pot Culture Technique for Study of *Hevea* Nutrition. *J-P. Poliniere and H. van Brandt*	467	250
PART 3		
Partition of Assimilates. *J. K. Templeton*	468	259
Clonal Variation in Latex Flow Pattern. *E. C. Paardekooper and Sanit Samosorn*	469	264
Latex Vessel Plugging, its Importance to Yield and Clonal Behaviour. *G.F.J. Milford, E.C. Paardekooper and Ho Chai Yee*	470	274
Exploitation of *Hevea*. *P. de Jonge*	471	283
Exploitation of Modern *Hevea* Clones. *Ng Eng Kok, P. D. Abraham, T. C. P'ng and Lee Chew Kang*	472	292
Influence of Length and Position of Tapping Cut and Direction and Frequency of Tapping on Yield of Clone PR 107. *S. Langlois*	473	330

	Communication	Page
Diurnal Variation in Latex Yield and Dry Rubber Content and Relation to Saturation Deficit of Air. *E. C. Paardekooper and Sompong Sookmark*	474	341
Influence of Depth of Tapping on Growth and Yield of *Hevea Brasiliensis*. *P. de Jonge*	475	348
Effect of Tapping Rest at Different Seasons. *R. Martin* ...	476	353
Economic Analysis of Tapping Experiments. *Ng Eng Kok, Ng Choong Sooi and Lee Chew Kang*	477	360
PART 4		
Biochemical Problems of Rubber Synthesis. *F. Lynen* ...	478	389
Latex Metabolism. *G. F. J. Moir*	479	407
Regulation of Glycolysis in Latex of *Hevea Brasiliensis*. *J. d'Auzac and J-L. Jacob*	480	417
Carbohydrate Metabolism in *Hevea* Latex—Availability and Utilisation of Substrates. *F. J. Bealing*	481	445
Substrate and Metabolism of Carbon Dioxide Formation in *Hevea* Latex *in Vitro*. *J. Tupy and W. L. Resing*	482	456
Nucleic Acids in Latex and Production of Rubber in *Hevea Brasiliensis*. *J. Tupy*	483	468
Significance of Non-Staining White Zones in Starch Gel Electrophoresis. *S. J. Tata and E. E. Edwin*	484	477
Changes in Organo-Mineral Composition and Respiratory Activity of *Hevea* Latex Associated with Intensive Tapping. *Chai Kim Chun, J. Tupy and W. L. Resing*	485	484
Physiology of *Hevea* (Latex Flow). *W. A. Southorn*	486	494
Studies on Lutoid Membrane Ultrastructure. *J. B. Gomez and W. A. Southorn*	487	513
Electrophysiological Phenomena in *Hevea Brasiliensis*. *C. M. Lim, W. A. Southorn, J. B. Gomez and E. Yip*	488	524

	Communication	Page
Electron Microscopical Studies of Latex Vessel System of *Hevea Brasiliensis*. *P. B. Dickenson*	489	543
Studies on Composition of Latex Serum and 'Bottom Fraction' Particles. *B. L. Archer, B. G. Audley, G. P. McSweeney and C. H. Tan*	490	560
New Molecular Biology—From DNA to Development. *J. Bonner*	491	570
PART 5		
Smallholdings in West Malaysia. *Mohd. Noor bin Wahab and K. C. Arun*	492	581
Assessment of Smallholders' Central Processing and Marketing Schemes. *Colin Barlow, Lim Poh Loh and Ong Yong* ...	493	592
Analysis of Smallholders' Rubber Marketing in West Malaysia. *Lim Sow Ching*	494	604
Towards an Optimum Size of Rubber Holding. *Colin Barlow and Chan Chee-Kheong*	495	613
Factors Affecting Profitability of Rubber Production on West Malaysian Estates. *Ng Choong Sooi, Colin Barlow and Chan Chee-Kheong*	496	654
